AM New Technologies – H3 KiwiFlex 90 LED Downlight

The H3 KiwiFlex 90 is a high-performance LED downlight featuring adjustable wattage, 5 CCT selectable colour temperatures, and CRI90+ clarity for superior colour rendering. Engineered for both residential and commercial lighting applications, it delivers precision, flexibility, and true New Zealand innovation.

Designed to integrate seamlessly into modern interiors, the KiwiFlex 90 provides comfortable, uniform illumination that enhances both architectural detail and everyday living. With adjustable wattage and colour selection make, It's equally at home in living rooms, kitchens and bedrooms as in offices, retail spaces, Churches and hospitality environments.

Why Designers Choose the H3 KiwiFlex 90

- Adjustable wattage and 5-CCT selection for on-site tuning
- CRI90+ for vivid, accurate colour rendition
- Low-glare optical design for visual comfort
- Ideal for general, task and accent lighting in multiple applications
- Reliable, long-life performance with stable light output and multiple control options
