

Illuminate Progress. Guide the Night.

Purpose-built for urban infrastructure and car park environments, this advanced street light delivers high-performance illumination with precision optics and robust thermal management.

Optimized for safety, energy efficiency, and long-term reliability, it ensures consistent visibility in low-light conditions—enhancing security and operational functionality after dark.

Illuminate the City with Next-Gen LED Street Lighting — engineered by H3NZ for safer, smarter urban environments.

Key Features:

- High-Lumen Efficiency for Wide-Area Coverage
- Precision Light Distribution with Minimal Glare
- Ultra-Wide Voltage Range: 97–277V
- Multiple Wattage Options: 100W / 150W / 200W – ideal for diverse applications
- Energy-Saving LED Technology
- Durable, Weather-Resistant Construction

From residential streets and highways to parks and public spaces, our LED street lights deliver visibility, safety, and long-term performance—night after night.
